Inauguration of Curry

Advices from Santa Fe are to the effect that the inauguration of Governor George Curry will be a brilliant affair and attended by representative people from all over New Mexico.

That the city of Albuquerque—the metropolis of New Mexico—will send a large and representative delegation of people, is now assured.

A number of leading republicans have arranged for additional cars and a low railroad rate to Santa Fe. These cars will be detached from a regular train at Lamy and will be sent over the little branch line to Santa Fe with a special engine so that there will be no delay. The cars will be Pullmans and they will be clean and comfortable.

The American Lumber Company band has also been secured to accompany the delegation.

The Territorial Fair association will also send one or more representatives to attend the inauguration and incidentally to boost for the big fair. The Citizen already has quite a list of names of those who desire to attend the inauguration and the list is growing.

Those who contemplate going should notify either this office, W. B. Childers or W. S. Strickler as soon as possible, since hotel accommodations at Santa Fe as well as railroad rates and accommodations must be arranged for in advance.

The Albuquerque delegation will find arrangements as nearly perfect as it is possible to make them and the trip to and from the Capital City can be made with a minimum of discomfort.

Following the inauguration in the hall of representatives in the morning, a brilliant reception and ball will be held in the evening, August 1, at the Palace hotel at Santa Fe.

Accommodations will be arranged for those who desire to remain for the reception and ball.

Albuquerque should be well represented at the governor's inauguration not only by republicans but by her business men and citizens generally.

The occasion is not one of politics although George Curry is a republican of the Roosevelt type and will carry out Roosevelt policies.

He should be made to feel however, that Albuquerque is as willing as the balance of New Mexico to unite with him for a clean and decent territorial government and that she welcomes his return to New Mexico as heartily as any other portion of the Sunshine Territory.

The Clovis News is, to say the least, optimistic. A recent edition hurls the following gauntlet into the public arena of Roosevelt county: "We are forced to acknowledge the truth of the following statement from the pioneer editor of the Texico Trumpet: If Clovis ever gets residents on one-tenth of the residence lots plotted and on the market there would be population enough there, so that every farmer in Roosevelt county and a part of Quay county could go into market gardening and then not raise enough vegetables to supply the city. The truth of the above statement is in evidence, when we say that the plotted land is in Clovis and that soon to be on the market will cause the boundaries of Clovis to extend about three miles from 'tip to tip' but at the rate Clovis is building, we will soon fill in the space, and when this becomes the home of at least five hundred trainmen with their families, it is safe to bet that a few more additions will go on the market. The only thing we regret is that our boundaries may extend to Texico and then we would have to take the suburban car to go there."

"The Morning Journal takes pleasure in copying, with its unqualified endorsement, the following compliment paid by the Roswell Record to a man who had fully earned it—and this we do not only as a matter of justice to an efficient officer, but also as a hint to the management of our territorial fair. No money ever pays a better return than that which is spent in taking care of the newspaper fellows."—Morning Journal. Is this just another little hint to the papa of the late boy executive that it is time to pay the press agent?

President Hill of the Great Northern railroad declares that the only solution for the car shortage problem in the northwest is to raise freight rates on lumber. President Hill's suggestion also discloses the proper solution for another problem which has been agitating the lumber trust. It affords an excuse for another increase in the price of lumber, though it was believed that the limit had already been reached. The beef trust might look to "Uncle Jim" for the discovery of a scheme to boost meat prices still higher.

Marion Littrell is being severely condemned because he has not strung up convicts. Hevers for 17 days, slapped and beaten him and then placed him in a dark cell on bread and water for stabbing another convict. So thoughtless of the new superintendent.

"Government by inspection" is causing a great deal of trouble in and about the capital city of New Mexico. There are a good many clouds in the sky, up that way just now, and some of them are quite ominous.—Morning Journal. But those silver linings.

It is very pleasant to learn that the international theater trust is intended to benefit art in this country. It is only to be hoped that it will not be as great a godsend as the Standard Oil Company.

Hau has been convicted of murdering his mother-in-law and is under death sentence, yet there is many a man who will recall Hau with secret admiration long after Hau has been executed.

It is to be hoped that one of the first things the new governor does, is to look over the records of some of the late reform office holders—particularly the Bureau of Immigration.

It is naturally bitter medicine for the morning paper that the new governor, Curry, has not as yet announced himself as in favor of Macpherson reform but it can not be helped.

As example of the Oriental trait of adhering to formula, the Japs went to the unnecessary trouble of promulgating a rumor before they had the king of Korea resign.

Attorney General George W. Prichard's reputation appears to be worrying the morning paper considerably these days. Maybe after all it is worth \$50,000.

It is hardly to be expected that railway officials will be interested in that Michigan device which absolutely guarantees to prevent accidents. It would cost money.

The Hague peace conference has as yet cut no wide swath toward the establishment of Tennyson's Parliament of Man and Federation of the World.

You hear as usual that harvest hands are wanted in Kansas. Did it ever occur to you that other states want harvest hands also?

What the small merchants of the west are trying to say is that Chicago has added the mail order list to the catalog of crimes.

Mrs. Fairbanks denies that the vice president is especially fond of buttermilk, but not a word does she say about cocktails.

"Fighting Bob" Evans has quite a reputation as a snipseshooter, but his preference is for larger game.

Soon they'll have reduced railroad fare in all but the states where the stations are farthest apart.

And the Roswell Record peacefully slumbers on.

But Curry Says He is a Republican?

Another thing that worries the old republican machine is the fact that Captain Curry, being a democrat and a man who cannot be controlled by Frost, Bursum, Andrews and Llewellyn, will take a notion to run things his own way, and further that he will be backed in this by President Roosevelt.—Roswell Record.

Then He Finally Admits It?

Don't it seem a little strange that the regnant machine should continue to fight a "dead one."—Roswell Record.

Fudge, More Fudge!

To say that Governor Hagerman was too conscientious for success in "New Mexico politics" does not justify the worse menace to the old republican machine than having a republican governor supported by democrats.—Roswell Record.

Then He Was Supported by Democrats?

Don't forget that the new governor is a democrat. This may prove a worse menace to the old republican machine than having a republican governor supported by democrats.—Roswell Record.

How Old Is Ann?

(This should not be read until after eating a lobster, as turning the lights low and instructing the orchestra to play touching, tremulous music.)

Drive the Hagermans out of New Mexico if you can. Let the seed sown by the Hagerman administration of territorial affairs have taken root, and the people of New Mexico will continue the fight for decent government.—Roswell Record.

Adios.

(The Plunderbird—in sad chorus.) Farewell, Prosperities! Goodbye, Success!

Curry has opinions of his own, we guess; Land Office agents are after you and me Farewell, Prosperities!—Morning Journal.

Vamos-Skidoo.

Farewell, Prosperities! Goodbye, Success! Curry's got Bert, and us in an awful mess; He's got some cans for us its plain to see, Farewell Prosperities!—Morning Journal.

Now Don't Lose Your Temper That Way.

(Special Dispatch to the Morning Journal.)

Santa Fe, N. M., July 23.—Superintendent Marion Littrell of the territorial penitentiary today announced the appointment of Dr. David Knapp to be prison physician in place of Dr. James A. Massie. Knapp is the man who held the position under Bursum and whose testimony was largely used in the so-called Treford investigation in making the findings against Treford.

The reign of humanity at the territorial prison is now conceded to be in full blast.

But You Said Bursum Owned Us, Last Time?

(From the Morning Journal.) "ALL THOSE who wish to welcome Curry please send their names to me or my bank or my newspaper."—Little Willard.

TEXAS IS AFTER THREED TRUST NOW.

Austin, Texas, July 23.—Attorney General Davidson announced today that he is investigating the threed trust. It is said that the concern is operating in Texas in violation of the anti-trust laws. As soon as sufficient evidence is obtained upon which to base a prosecution, suit for large penalties will be filed against the threed manufacturers. Their agents in Texas will be prosecuted criminally under the new anti-trust laws. The price of threed in Texas has gone up from twenty-five cents to thirty-five cents for six spoons, recently.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

J. W. Wear, living at 718 Eleventh street, Albuquerque, N. M., says: "I had trouble off and on with my back for a long time. For two years I could not straighten after stooping without help. As long as I would remain in an erect position I experienced no difficulty of any kind but the least strain or tension brought on to the muscles of the loins, caused me to suffer severely. I tried different remedies, but no relief of any kind was obtained until about two years ago I learned of Doan's Kidney Pills, procured a box and began using them. The result was a complete and permanent cure and one which has been permanent up to the present time. I feel more than justified in vouching for the value of Doan's Kidney Pills and on unnumerable occasions I have strongly advised their use to those suffering with backache or kidney trouble."

\$2,000 MORE IS NEEDED FOR BIG FAIR

Soliciting Committee After Cash Which is Necessary at Once.

The fair association needs \$2,000 in cash additional to the amount now subscribed in order to carry out its plans for the biggest territorial fair in the history of the southwest, and the money must be forthcoming immediately if the fair is to be the success it deserves to be. The soliciting committee is now at work and prompt response is necessary. As the money is merely an investment which will bring value received in additional patronage to the merchants and additional prestige to the city and its property owners, there seems to be little doubt that the amount will be subscribed at once. It must be pledged within the next two days.

As a short summary of what the fair will be, the following list of attractions, including some of the most famous historical and other exhibitions, is an example:

Big Fair Attractions.
Horse racing—\$8,000 appropriated. Includes four \$1,000 stake races. Base ball—\$1,750 appropriated. For championship of the southwest.

Carnival—Best obtainable. Many shows and free attractions day and night on streets of city.

Cavalry maneuvers, United States regulars.

Indian dances, never before seen off the reservation.

Broncho busting, expert cowboy riders.

Relay racing, five-mile contests. Native sports, pony racing.

"Gallo" racing, native "Shinney." Captive balloon, hydrogen gas balloon "Albuquerque" will make daily numerous passenger carrying ascensions.

Aeronaut Jos. A. Blondin will cut loose last day of fair and endeavor to break record for long distance flight (international) and win the "Aero" cup.

Automobile racing, amateurs only. Historical pageant, including Colorado and his band.

Rock drilling contest, expert single and double handed drilling.

Firemen's races, best volunteer teams.

Trades display parade, a striking illustration of Albuquerque's commerce.

Live stock exhibit, horse, cattle, sheep, dog and poultry shows.

Agricultural display, what the arid southwest can show.

Baby show. Last year's was most successful on record.

Montezuma Ball. The annual social event of the territory.

The Colorado Commemorative Convention—Interstate. Commemorative first exploration of the southwest.

Many prominent speakers present, representing national and state governments, the church, the army, historical societies, patriotic organizations, educational association, etc.

Many territorial conventions, sheep and wool growers, Odd Fellows, Knights of Pythias, Red Men, Ancient Order of United Workmen, Funeral Directors and many others.

OPERA COMPANY CLOSES ENGAGEMENT

The farewell performance of the Boston Ideal Comic Opera company's local engagement occurred last evening at the Casino, when "Said Papa," the merry comic opera, was repeated for the third time before a large audience.

The comedy situations were portrayed excellently by the comedians, and the various musical numbers which were sung splendidly Sunday and Monday, were given last night with a dash and vim, which strengthened the regard which the local theatergoers have for the comedy.

A. C. Burgess, the leading comedian, his brother, W. H. Burgess, T. W. Walters, the juvenile man, Mr. Moseley, character juvenile; Byri Harrison, character comedian; Miss Laura Moore, leading woman; Miss Winifred Crowe, ingenue, and Kitie Giesler, character woman, were all encoored and compelled to make short curtain talks.

The company, with its scenery and accessories, left this morning at 12:23 on No. 9 for El Paso, where it will open an engagement at the Alrdome theater, succeeding the Manhattan Musical Comedy company, which will probably return to Albuquerque for a short engagement.
